

Asset Protection, Wealth & Business Preservation

Our asset protection and business wealth preservation team utilizes various methodologies for clients to preserve and protect the value of their personal assets and business holdings. We are acutely cognizant of economic risks incurred by high net worth individuals from claims against their personal and business assets. Our asset protection planners are recognized thought leaders whose array of clients are local, national and international high net worth individuals and their businesses. Our team searches for solutions for these critical problems including utilization of sophisticated and litigation tested offshore asset protection structures.
