

## Helping Hands - A Must Watch Video Documentary

February 20, 2019

By: Lee A. Weintraub

---

Helping Hands spent a day spreading cheer to sick children at Jackson Memorial Hospital. The firm charity was founded by Shareholder Lee Weintraub following his own daughter's experience with childhood cancer.

Becker brought cameras along to document the memorable day and were lucky to hear directly from Lee's daughter Morgan, a cancer survivor herself, about what Helping Hands means to her. You may want tissues in hand while watching this heartwarming video.

**Did you know?** Helping Hands delivers toys and joy year round and statewide. Donations can be made any time via the web at <https://www.beckerhelpinghands.org/>.
