

## Property Insurance Claims

After your property is damaged by a hurricane or other disaster, you naturally expect your insurance company to quickly investigate your claim and fairly pay your loss. Unfortunately, many policy holders have learned that insurance companies often undervalue, delay, or deny payment. We have represented policy holders in a wide range of insurance disputes including coverage disputes and bad faith claims. Becker attorneys have significant experience assisting Florida property owners in their fight with their insurance carrier and have successfully resolved hundreds of claims totaling millions of dollars.

**Becker will help you maximize your recovery.**

In addition to our in-house legal services, Becker owns and operates Association Adjusting, a licensed and insured public adjusting firm led by Joseph "Joe Connelly" (#E157037). Mr. Connelly has served as Executive Board Officer for the Florida Association of Public Adjusters (FAPIA).

Recognized as an authority in the community association industry, Association Adjusting has the expertise and experience to help community associations achieve the most favorable outcome possible. Our team of public adjusters, led by Mr. Connelly, provides clients with only the highest level of professionalism and excellence - whether you're dealing with a claim that stems from hurricane damage, water damage, theft, fire, mold, roof leak, or any other type of calamity, our singular goal is to ensure your interests are always protected.

## Hurricane Preparedness and Recovery Guide

The state of Florida is no stranger to hurricanes and other natural disasters. Living in paradise doesn't come without some risks associated with Mother Nature. The question is never just if our communities, homes and families will be impacted by a windstorm event, but when they will, and how we will prepare for and recover from that event.
