

Webinar: Property Damage and Your Association - How to Protect Your Interests

September 17, 2020

By: Kenneth S. Direktor

Every community association will experience property damage during its lifespan. In addition to windstorms, fires and floods, there are everyday issues such as water leaks that can cause significant damage. Watch the replay of a panel discussion on what community associations need to do to prepare, manage, and successfully recover

from the unexpected.

Discussion included:

- Steps to take to protect life and property
- Who pays (maintenance damage vs. casualty damage)
- How to document a claim
- How insurers determine the value of a claim
- The role of independent public adjusters

Watch the replay below!
